

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 860407. BIOPLASTICS EUROPE project website: [www.bioplasticseurope.eu](http://www.bioplasticseurope.eu)

**PhD student position in Lodz University of Technology  
(Institute of Environmental Engineering and Building Installations and  
Department of Bioprocess Engineering)**

We are looking for a person, who possesses a master degree in one of the following fields: biotechnology, chemical or biochemical engineering, environmental chemistry, environmental engineering, environmental protection. We are interested in a person who wants to work in the international team for the project “Developing and Implementing Sustainability-Based Solutions for Bio-Based Plastic Production and Use to Preserve Land and Sea Environmental Quality in Europe”. It is a H2020 project that is realised from 2019 to 2023.

This PhD student position is available immediately. We are expecting your application by 31 January 2020, however the deadline may be extended if the position has not been filled by then.
